Type of Labels

Fixed Length Labels

- ✦ Direct thermal label printers offer cost effective label printing with no additional consumables costs other than label rolls.
- ✦ Star label printers have black mark and/or transmissive sensors for detecting fixed length labels.
- ✦ Desktop and kiosk label solutions have a high-quality cutter as standard.

Linerless Labels

- ✦ Thermal repositionable labels provide the ideal Re-Stick customer labelling solution for take-away, cafes, fast food orders etc.
- ✦ Linerless labels also offer environmentally friendly label solutions with an increased percentage of labels per roll and zero wastage.
- ✦ Star's high quality linerless label printers are designed to manage the printing and cutting of linerless media with specialist cutters and sensors.

Varsatility

What size do you need ?

Star 's high quality printers offer a variety of print widths from 32 to 104mm and can print high quality graphics, text and barcodes in landscape or portrait format, allowing you to print the label length you need or smaller labels in multiple labels per row. Compact, lightweight printers for so many labelling environments: Shelf Edge labels, Food labelling, Logistics, Pricing & Barcodes.
